**R 25 Add: «Safe SeaNet (SSN)».
Directive 2002/59/EC**

The Directive 2002/59/EC refers to the operator, agent or master of a ship, who is bound for a port of a Member State and shall notify the information to the port authority:

- (a) at least twenty-four hours in advance; or
- (b) at the latest, at the time the ship leaves the previous port, if the voyage time is less than twenty-four hours; or
- (c) if the port of call is not known or it is changed during the voyage, as soon as this information is available.

This Directive applies to ships of 300 gross tonnage and upwards, unless stated otherwise.

Furthermore, accurate knowledge and report of dangerous or polluting goods being carried on board ships and of other relevant safety information is essential. Ships leaving or bound for Member States' ports must notify this information to the competent authorities or port authorities of those Member States.

Without prejudice to international law and with a view to preventing or mitigating any significant threat to maritime safety, the safety of individuals or the environment, Member States shall monitor and take all appropriate measures to ensure that the master of a ship sailing within their search and rescue region/exclusive economic zone or equivalent, immediately reports to the coastal station responsible for that geographical area:

- (a) any incident or accident affecting the safety of the ship,
- (b) any incident or accident which compromises shipping safety,
- (c) any situation liable to lead to pollution of the waters or shore of a Member State,

(d) any slick of polluting materials and containers or packages seen drifting at sea.

Directive 2009/16/EC

The Directive 2009/16/EC, in accordance with the Directive 2002/59/EC is referred to the operator, agent or master of a ship which is eligible for an expanded inspection and bound for a port or anchorage of a Member State, who shall notify its arrival to the port authority or body or to the authority or body designated for that purpose at least three days before the expected time of arrival in the port or anchorage. The Directive is applied for Priority I or Priority II ships flying a flag other than the Greek one, and subdued to an expanded inspection.

According to the Directive, for ships flying a flag other than the Greek one, the operator, agent or master of a ship should provide the information on the actual time of arrival and the actual time of departure of any ship calling at a port or anchorage within a reasonable time (30 minutes).

The following categories of ships are eligible to an expanded inspection:

- ships with a high risk profile,
- passenger ships, oil tankers, gas or chemical tankers or bulk carriers, older than 12 years of age,
- ships with a high risk profile or passenger ships, oil tankers, gas or chemical tankers or bulk carriers, older than 12 years of age, in cases of overriding or unexpected factors,
- ships subject to a re-inspection following a refusal of access order.

Reporting according to the Directives 2002/59/EC and 2009/16/EC of the Official Journal of the European Union

All reports mentioned above are submitted to the responsible Coastal Stations via e-mail (ssn@hcg.gr) or fax (2104173501). For not submitting these reports, penalties are applied. Further information, such as report samples, can be acquired via access to the website <http://www.hcg.gr>
